

02nd October 2018

GIS User's

Dear Sir/Madam,

GIS Day Competition "Let's see Sri Lanka through GIS technology" through Mapping of Attractive Locations in Sri Lanka in Commemoration of World GIS Day - 2017.

World GIS Day (Geographical Information System day) is celebrated around the world every year on the 3rd Wednesday of the month of November as a part of National Geographic's & Geographical awareness week. More information and material can be found at www.gisday.com. GIS (Geographic Information Systems) is the mapping of Geographic information with the assistance of computer technology.

In view of World GIS Day, GIS Solutions (Private) Limited the sole authorized Sri Lankan distributor of Environmental System Research Institute (ESRI), and Survey Department of Sri Lanka have jointly organized a competition of mapping significant places in the surrounding environment through GIS technology, under the theme of **"Let's see Sri Lanka through GIS technology"**. This is the Third consecutive year that this competition is carried out.

Those who are wish to participate in the competition, could email us information of a geographically, culturally, economically and socially important or significant place/ location/s from their own surroundings to our e-mail address (gisday2018@gislk.com) / log into the below link to reach us on or **before 20th October 2018**. Location details including the Geographical coordinates, a picture and a brief description about it especially its significance. The details of the participants (Name, Organization, Address, contact number) should be sent along with the picture.

Certificates and a special award will be bestowed to selected entries by a special panel of judges. Award ceremony details & winner details will be informed in due course to the winners.

For further details you may contact 077 9148713 / 071 5478847 or visit our web site: www.gislk.com/gisday.

Our main intention is to promote the use of Maps and Mapping technology by creating a complete map of significant and unique of important places of Sri Lanka utilizing GIS technology.
